

eco info

**A typical home uses more than 63 gallons
(238 litres) of water per person per day.**

Source: www.washoecounty.us/water/wtrconservation/usage.htm

Listed below are **WATER-SAVING PRODUCTS FROM MOEN INCORPORATED** including Moen®, ShowHouse®, Moen® Commercial and Cleveland Faucet Group™ (CFG) that will help environmentally conscious developers, property owners, hotels, builders and consumers conserve water, lower energy costs from reduced hot water use and earn credits toward LEED® certification. One LEED point is credited for a 20% reduction and two LEED points for a 30% reduction in interior water consumption versus standard fixture requirements.
